We reserve the right to make technical changes that serve to improve quality. In rare cases, permanent shading may occur in velour carpets without impairing the usability. The cause of this is not due to the material or construction. Therefore, no warranty can be assumed for this. Halbmond's carpets and rugs must be installed in accordance with the respective Halbmond installation recommendations and the state of the art. All information is based on current knowledge and experience. They can only be general information without guarantee of properties, as we have no influence on the construction site conditions and processing. Due to the wide range of possible influences when using our products, they do not exempt the installer from carrying out his own tests and trials. Regular maintenance cleaning is decisive for the cleanliness, value retention and good appearance of the floor covering.
